

Our Vision

Information empowerment through innovative technology and exceptional service.

Our Mission

A leader in access, service, and user experience, Rowan University Libraries anticipates and fulfills the curricular, research, and clinical information needs of our community.

Our Goals

Teaching and Learning Success

Inspire a culture of student and faculty success by being present, active, and collaborative.

Research Mission

Create a resource-rich environment in support of the research orientation of University, with focus on empirical research for eventual publication.

Healthcare Delivery

Partner in mission level goals of clinical care, education, innovation and customer service.

Transforming Ourselves

Encourage a work culture that values collaboration, while at the same time providing professional development opportunities and an environment that fosters creativity, innovation, and unique approaches to processes.

Organizational Success

The libraries participate in the success of Rowan University Objectives by modeling best practices in exploring partnerships, fostering connections and aligning goals.
